Notes:
1. The accumulated losses of the Company (including other comprehensive income) as at the 30 June 2021 stood at Rs. 4,657.31 Lakhs. On account of the operating losses during the previous year and other indicators, the Management, including the Board of Directors of the Company, has performed an assessment on the Company's ability to continue as a going concern. The Board of Directors based on its review of the approved business plan and the future cash flow projections prepared for the next twelve months from the date of the financial results has assessed that the Company would be able to meet its cash flow requirements for the next twelve months from the date of financial results considering the following reasons:
a) The Company expects growth in the business, improvement in the operating margins and improvement in the Cash flows in the future by focusing on the following:
i. The Company has a pending order book for around Rs. 24,948.15 Lakhs as at 30th June 2021. Additionally, the Company is hopeful of receiving some orders for which it has already submitted its bids.
ii. The Company is in the process of bidding for multiple projects for Tata Projects Limited ('TPL'), Holding Company and it is hopeful of receiving orders from TPL in the coming quarters based on competitive bidding and Arm's Length Pricing norms.
iii. The Company plans to successfully pursue for customer claims in the next quarters, which would significantly improve its operating margins as well as its cash flows.
iv. Some of the major projects of the Company are in the final stages of completion and the Company plans to complete the pending milestones for these projects in the next couple of quarters. This would reduce the unutilized revenue amount which in turn would improve the working capital/Cash flow situation of the Company.
v. The Company has registered itself as a Medium Enterprise as per the requirements of the Micro, Small and Medium Enterprises Development Act, 2006. This would significantly improve the working capital situation/Cash flow situation of the Company as the customers would be obligated to make payment to the Company within the stipulated timelines under the Act.
vi. The Company is also in the process of reviewing its borrowing facilities and is currently renegotiating with lenders for lower interest rates. The Company, through this exercise, is trying to reduce its finance cost, thereby improving the overall margin.
vii. During the current quarter, the Company converted its Payables to Holding Company amounting to Rs. 1,000 Lakhs into an Interest Free Loan for a period of 10 Years. This has improved the overall working capital situation of the Company. Additionally as per the requirements of Ind AS 109, the Company has computed the deemed financial benefit on the interest free borrowing availed and the said benefit has been taken to Other Equity which has improved its net worth position.
b) As at 30th June 2021 there are three Directors nominated by TPL on the Board of Company, which demonstrates its continuous operational and business support.
Based on the assessment performed above, the Management has prepared the accompanying financial results on a going concern basis.
2. Covid-19 which continues to spread across the globe, including India, has contributed to a significant decline in economic activities and volatility in the businesses. Post announcement by WHO as a global pandemic, numerous steps have been taken by the Government and companies to contain the spread of the virus. The extent to which the business/operations of the Company will be impacted will depend on future developments which are highly uncertain. Whilst the Company has a committed order book of Rs. 24,948.15 Lakhs as at 30th June 2021, there is considerable uncertainty regarding the extent that Covid-19 will affect the business and operations of the Company. Further, the Company has carried out an assessment of "going concern", the recoverability and carry value of assets, etc. based on certain assumptions, cumulative knowledge and understanding of the business and current indications of future economic conditions and has made adjustments, wherever necessary. However, the actual impact may be different from that estimated as at the date of approval of the financial results.
